

Outcome Measures

Information that allows measurement of behavioral health outcomes. At a minimum, the following outcome measures must be completed and submitted annually (on the anniversary of the client's intake date) and at disenrollment:

- Employment status;
- Educational status;
- Primary residence;
- Number of arrests;
- Primary and Secondary Substance Use (drug type and frequency);
- Behavioral health category; and
- Diagnosis-related information (e.g., Axis I, II, V and GAF/CGAS).

At a minimum, the following outcome measures must be completed and submitted every 6 months (6 months from the client's intake date) and at disenrollment:

- Avoid Delinquency;
- Success in School;
- Stable and Productive Adults;
- Lives with Family;
- Increased Stability; and
- Decrease in Safety Risk.
